

Sharpening Services

HOW TO WRAP ITEMS FOR TRANSPORT

1. Gather items to be sharpened along with 3-4 sheets of newspaper (per bundle).
2. Lay newspaper out in a diamond pattern.
3. Lay knives (or scissors) with blades in towards center and handles out farther than tips of blades.
4. Fold bottom up and sides in (as if wrapping fish!) and roll to top.
5. Securely tape bundle closed.
6. If shipping items to us, be sure to use plenty of packing materials to cushion bundle and keep from shifting in box.
7. If dropping off with us, include a copy of your Order Confirmation Email (either in bundle or rubber band securely to outside of bundle).
